On **19-06-2023** a District level workshop was organized by the Race Project run by the LEADS organization

In the program, **Gumla D.D.C. Hemant Sati** , **Scientist Atal Tiwari** from KVK, Block participated.

The program was started at 1:30 PM, by **DPM Yougesh Rai of Race Project Gumla**, by giving the introduction of LEADS organization followed by self-introduction of the participants who came to the program, they were told about the purpose of the program.

He further mentioned the RACE project is creating awareness regarding clean energy apart from that he mentioned about the plan, has been prepared for cultivation of Maduva in 200 acres, and rapid work is being done through the Race project to help farmers in Maduva cultivation and make them self-sufficient.

After this, DPM Yogesh Rai invited the project coordinator of the Race project **Mr. Mahendra Kumar** to conduct the program.

Mahendra Kumar shared detailed information about the work being done on clean energy through the help of PPT.Mr. Mahendra said that this project is being operated as a model block in the Bishunpur block of Gumla district for the last 4 years, in which people are being made aware of energy by forming clean energy committees at the village level.So far, 450 youths have been given skill training under the RACE project, who are demonstrating their skills by joining employment after getting training at the panchayat level.

After Mahendra Kumar, Dr. C.K. Sharma discussed about the work being done by Race Project Gumla on clean energy in all 68 villages of Bishunpur, their achievements, as well as the cooperation that will be done by Vikas Bharti in the field of energy.

After Vikas Bharti, Scientist Atal from Krishi Vigyan Kendra gave the description on clean energy Atal said that the work being done by Race project in which training the youth and connecting them with employment is commendable, KVK. Through FPO at Panchayat level, many schemes are being operated

by connecting people on self-employment, in which through LEADS Race, we can join together and make people aware of clean energy.

Kuldeep Mehta, of the Race project said that in Bishunpur of Gumla district, drip irrigation has been installed in a total of 173 acres with the help of the district and 12 solar lift irrigations have also been installed, which is a huge achievement for the race project.

The program was concluded by JSS director Mishra of Gumla district mentioned that whatever programs are being done on the ground in the field of energy through the Race project, it is really commendable, the more people are connected with energy, the more coal and pollution will be saved. The biggest achievement of this program is that the youths are being trained in this, so that after getting training at the village level, whatever solar energy is wasted at the village level. An assembling unit of LED bulbs was established in Bishunpur through the RACE project.

The program ended with a vote of thanks. DPM Yogesh Rai, BPM Bipin Tiwari, Shatrughan Lakra, Preeti Kumari, Dhanveer Oraon Rakesh Singh of Race Project staffs were present in this program.
